

ALL POINTS INTERNATIONAL (API)

Cost-Effective Solutions for Your Municipality Help Your Town Comply with the MS4 Ruling

SALT SHEDS

During the harsh winter months, having a well protected and readily available salt supply is essential. API structures provide the access and durability needed to house all types of road salt. API is proud to offer a full selection of sizes and colors to meet the needs of your town.

EQUIPMENT STORAGE

Whether your DPW needs to securely store equipment or protect that equipment from weather related damage, API can provide cost effective structures to meet your functional and financial requirements.

VEHICLE STORAGE

Nothing can ruin a vehicle fleet faster than long term exposure to the elements. API structures are designed to protect your motor pool from the ravages of cold, harsh winters and the searing heat of summers. Your fleet is a valuable asset that will last longer with a protective shelter from API.

ABOUT OUR STRUCTURES:

All structures are available with **Electrical Kits, Lighting, Liners, Oversized Doors, and HVAC.**

Structures can be erected on **virtually any flat surface. No foundations or footings are needed.**

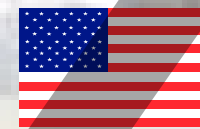

Lengths can be **increased or decreased to accommodate any need. Widths up to 300'.**
